**Dedicated to Swami Vivekanand
at his 150th birth anniversary**

Swami Vivekanand
(12 January 1863 – 4 July 1902)

Editorial

This issue of the journal is being published in the rainy showers. They have given us the required zeal to bring the present issue in this form.

This issue **dedicated to Swami Vivekanand** includes ten articles and research papers related to various interesting contemporary issues in education and allied fields. Mainly these papers are focused on the issues like Inclusive education, Environmental Education, Status of Academic Staff Colleges etc. We hope that all readers and researchers in the field of Education and allied disciplines will be benefitted by the contents in this issue.

We are grateful to our new Patron and welcome her along with all the members of the advisory body, the members of the editorial committee, authors and the Seema Press who helped us to bring out the July 2013 issue of SPIJE in this form. We are also grateful to our founder Patron who gave us momentum to reach the present stage. We cannot spare our readers who are constant source of inspiration for us. They can always communicate their views, critical comments and suggestions to us for further improvement. Further, to ensure wider dissemination through the print and electronic form of forthcoming issues of SPIJE, we look forward for articles, research papers and reviews of our academic fraternity.

Editor SPIJE
